

GolfRegistrations Software

THE EASY & AFFORDABLE WAY

to Manage Fundraising Golf Tournaments

GolfRegistrations® is the industry leading online registration and management system for fundraising golf tournaments. Since 2003, GolfReg has successfully hosted more than 3,000 golf tournaments in the US and Canada.

Our mobile-friendly websites are easy to create and highly customizable. The GolfRegistrations Golf Pro platform includes:

- Online registration for golfers and foursomes
- Team pairing & starting hole assignments
- Sponsorship promotion & sales
- Unlimited product sales
- Detailed order and financial reporting
- And much more!

The administration area provides a complete player database, storing registration information (name, address, phone numbers, payment details, email, etc.), as well as email broadcast and email template capability, allowing tournament directors to easily communicate with registered players, team captains and sponsors.

GolfReg Golf Pro easily integrates with Dojiggy Payments or your payment processor of choice, so your organization is in charge of your own payment processing and banking relationships and we do not charge payment processing or player convenience fees.
